## Industrie Technisch & Management

### Concept

Industrie Technisch & Management sets the standard in Belgium for relevant industrial information. With its horizontal approach, ranging from industrial management to technical cases and product-linked market reports, it covers all industrial DMUs: from the CEO to the technical decision-maker on the production floor. It offers readers an insider's view of other companies and disciplines. For advertisers, it is an effective platform for reaching prospective clients (in print and online).

### Technical file

**Print Run** 25.200 (16.100 Dutch - 9.100 French)  
**Published** ITM is published monthly, except in January, July and August.  
**Technical Info** [www.roularta.be/en/technical-info](http://www.roularta.be/en/technical-info)  
**Material** [backoffice.rpi@roularta.be](mailto:backoffice.rpi@roularta.be)

### Event

#### Industrie Awards 2011

Industrie Technisch & Management holds an annual not-to-be-missed awards event that recognises innovative industrial projects in the categories Logistics, Manufacturing and Process. For more information, please contact the sales team.
